## La San Marco *PRACTICAL* with POD Adapter

### AN INNOVATIVE AND STYLISH TRADITIONAL ESPRESSO MACHINE

**Compact Size:** measuring in at only 15 inches wide the Practical model fits almost anywhere

**Stylish design:** designed with rounded corners and finished in elegant glossy panels to match any decor. Polished chrome finish available by special order.

**Small group head & basket:** creates a deep bed depth for premium extraction

**Independent heat exchangers:** dedicated heat exchangers for each group head brings cold water to temperature quickly for optimal extraction

**Ergonomic steam valve handles:** designed as toggle levers with the barista in mind - faster, easier and more durable than traditional twist valves

**Low Voltage Requirements:** requires only 120V and 20amps, eliminating the need for expensive high voltage power

**POD adapter:** this unique handle features a customized basket designed to extract all flavors and create a velvety smooth crema
